

Emergency maintenance on server1833.redstation.co.uk.

Our engineers are currently carrying out emergency maintenance on server1833.redstation.co.uk.

We expect services to be briefly unavailable for a short time today (09/02).

What will happen?

Our infrastructure team will perform this work, and we do not expect much downtime.

When will the work be carried out?

The maintenance work will begin at 12:00PM (GMT) on Monday, 09th February and last until 15:00PM (GMT) on Monday, 09th February.

Will I experience downtime?

As with any maintenance work, there is an increased risk to services. Customers should consider their services to be “at risk” for the entire duration of the maintenance window.

Regards iomart
Communications Team.
